

The **Lift2Go™** is a revolutionary new lift that instantly makes locations up to 1.5 m (60 in) high accessible to wheelchair users. Its pioneering design allows one operator to transport and install it with no modifications to the site - eliminating the cost and space requirements of ramps and permanent lifts. It sets up in minutes, is easy to operate, carries up to 340 kg (750 lb), and is indoor/outdoor rated. The **Lift2Go** is the perfect way to bring loved-ones home for the holidays, expedite early release from hospital, or allow friends to visit for a weekend. See our website at www.Lift2Go.com to find out how **Lift2Go delivers accessibility anywhere!**

Features

- One-person transport & deployment
- Fits into most minivans/SUVs
- Sets up in less than 10 minutes
- Less than 12 lb (53 N) force to elevate
- No external power required
